

# Summer Reading Program

June 2009

Dear Parents,

At Edison, we have carefully crafted a summer reading requirement for all incoming second through fifth grade students. Specifically, our summer reading requirement is designed to invite your child to step up to their next year's reading level. One of the goals of our summer reading program is to foster a life-long love of reading in all of our students.

Enclosed are the required book(s) and assignment your child must complete. The book(s) is being provided at no cost and **will need to be returned** along with the required assignment during the first week of school in September.

Have a great time reading with your child this summer.

Respectfully,

*Mrs. Erin Lahr*
